Community First Health Centers

Improving the quality of life for our community.

Homeless Healthcare Program

Putting you **First**
no matter where
you live!

Are you living...

- With friends or relatives?
- At a hotel or motel?
- In your vehicle?
- On the streets or in the woods?
- In a shelter or warming center?
- In a transitional or recovery home?

You may be eligible for low or no-cost to you health care services through our Homeless Health Care Program.

Community First Health Centers has been providing services for the homeless since 1988. As we've expanded our services to include dental and behavioral health, we've also broadened our understanding of what homelessness looks like to improve our ability to serve our communities.

Our Homeless Health Care Program provides health services to the homeless population in Macomb and St. Clair Counties. Offered services include primary medical care, women's health services, preventive and emergency dental services, prescription coverage assistance, substance abuse treatment, and mental health counseling.

Once you've enrolled in the HHC program, we will provide the medical services needed and connect you with other local community providers that can help meet other needs such as housing, employment, or nutrition.
