### Technology

#### District-Wide Sound System Upgrades

L'Anse Creuse Public Schools has requested bid proposals to procure, replace, and configure a new public address system and sound reinforcement solution within their buildings and classrooms throughout the District. The new public address system will interact with the classroom sound reinforcement systems.

- Clearer teacher voice projection for improved student engagement and learning
- Instant classroom-to-office emergency communication for enhanced safety
- Modern, reliable PA system supporting district-wide communication needs
- Technology upgrades that strengthen both instructional quality and school security

Bids Received, February Board Approval

### **District Managed Projects**

# Additional Projects In Development

---

## Technology

### District-Wide Security Camera Upgrades

L'Anse Creuse Public Schools is requesting a bid proposal to replace and configure a new security camera system within their buildings in the District.

- Transition from legacy analog system to advanced IP-based security platform
- Deployment of 500+ new high-definition cameras across all district facilities
- Enhanced software capabilities for monitoring, storage, and analytics
- Improved coverage, reliability, and situational awareness for campus safety

Bids Due February 2026, March Board Approval

## **District Managed Projects**

# Additional Projects In Development

---

## Technology

### District-Wide Interior Fiber Upgrades

L'Anse Creuse Public schools is requesting a bid proposal to replace the existing interior fiber cabling between the IT closets within the buildings.

- Replacement of aging interior fiber cabling with new, future-ready infrastructure
- Upgrade to single-mode fiber for faster speeds, greater bandwidth, and long-term scalability
- Improved network reliability and performance across all district facilities
- Foundation to support emerging technologies and future growth

Bids Due March 2026, March Board Approval

## District Managed Projects

# Additional Projects In Development

---

## Technology

### Firewall Replacement

L'Anse Creuse Public Schools is requesting a bid proposal to replace the existing firewall hardware to improve security, performance, and reliability.

- Stronger cybersecurity protection
- Enhanced student and staff safety
- Enhanced security (IDS,IPS, application awareness, advanced threat protection)
- Improve network performance and reliability
- Scalable for future growth

Bids Due March 2026, March Board Approval
