**Traditional Kindergarten**

Each of our elementary schools offer a comprehensive full day Kindergarten program that focuses on reading, writing, math, science, and social studies. In addition to our hands-on interactive classrooms, our students experience a variety of specials programs including music, physical education, art, and Spanish.

**Transitional Kindergarten (TK)**

Our TK program offers a gift of time to those students who might benefit from an additional year before entering Kindergarten. TK is the first of a two-year Kindergarten sequence. Students attend Transitional kindergarten followed by Kindergarten the next school year.
