Adopt-A-Stream Training

Wednesday, April 16, 2025

6:00 PM – 7:00 PM

Google Calendar - ICS

Learn more about Clinton River Watershed Council's citizen science water quality monitoring program, Adopt-A-Stream!

Adopt-A-Stream is a volunteer-based initiative that empowers community members to protect local streams and rivers by monitoring water quality. Volunteers are trained, teamed-up, assigned sites, given equipment and data sheets then sent out into the field to gather information on streamside habitats, physical characteristics and aquatic insect populations.

This training is virtual in partnership with [Orion Township Public Library](#). A Zoom link will be provided after registering.

Clinton Cleanup

Saturday, April 19, 2025

9:00 AM – 5:00 PM

Google Calendar · ICS

Clinton Cleanup is an annual effort that brings people together to participate in clean-ups and practice stewardship of local water resources and green spaces.

Clinton Clean-up is made possible through the combined effort of hundreds of individuals, businesses, local governments, and community organizations who host clean-ups with us throughout the watershed. Volunteer groups organize clean-ups around the watershed and CRWC provides the materials needed (grabbers, trash bags, etc...).

If you'd like to lead a cleanup, fill out [this form](#) or contact Pronoye Kapali, Watershed Program Coordinator, at pronoye@crwc.org or 248-759-8199 to learn more.

River Day

Saturday, June 7, 2025

9:00 AM – 5:00 PM

[Google Calendar](#) · [ICS](#)

River Day is designed to encourage appreciation and recreational use of the waterways of the Clinton River and Lake St. Clair and to celebrate the leadership of local citizens, organizations, and communities whose efforts are critical to protecting and enhancing the overall quality of the Clinton River watershed.

On June 7, 2025, individuals, businesses, community groups, and local governments across the watershed will join forces on River Day to enhance and celebrate the Clinton River and Lake St. Clair. Activities range from nature hikes, canoe trips, fishing derbies, and fly fishing lessons to storm drain stenciling, river clean-ups, habitat restoration, and native landscaping.
